

Swachta Pakhwada – 16<sup>th</sup> December, 2020 – 31<sup>st</sup> December, 2020

**Swachta Pakhwada Daily Report**

Name of the Institute	Activities	No. of officer/officials participated	No. of persons participated (Public)
ICAR – NRC for Grapes, Pune	Visit of community waste disposal sites or compost pits, cleaning and creating awareness on treatment and safe disposal of bio-degradable and non-bio degradable wastes by involving civil or farm community.	30	NIL

An awareness drive was organized on **29.12.2020** to highlight the importance on proper management of kitchens wastes from the house hold and conversion of these kitchen waste to vermicompost. A simple demonstration was also undertaken on preparation of a house hold vermicomposting unit using a cardboard box, loose soil, farmyard manure, worm culture, waste jute bags and kitchen wastes. All the participants were encouraged to start a house hold vermicomposting unit at their homes and arrangements were also done to provide the required worm culture from the institute to the interested people.
