

## **Training Programme from 21<sup>st</sup> to 23<sup>rd</sup> September, 2021 in collaboration with MANAGE, Hyderabad.**

**Title: “Innovation in grape trade: Joint endeavour of the private and public sectors”.**

The training programme is intended for stake holders in grape industry viz. growers, input organization, exporters, laboratory personnel engaged in pesticide residue analysis, nursery men, raisin and wine makers. The major objective of the training will be to provide an insight of viticulture to the stake holders regarding how to increase grape trade by producing residue compliant quality grapes. It will also provide adequate knowledge to extension workers regarding the day-to-day problems in viticulture and the probable methods to solve them as well.
