

Workshop on ‘Advanced Food Testing and Hands-on LC-MS/MS Techniques’

A workshop on ‘Advanced Food Testing and Hands-on LC-MS/MS Techniques’ was organized by SCIEEX in collaboration with ICAR-National Research Centre for Grapes in Pune on May 19, 2023. This workshop brought together food testing professionals, researchers, and industry experts for a day filled with knowledge sharing and practical learning.

The workshop delved deep into the realm of advanced food testing methodologies, with a specific focus on LC-MS/MS techniques. Attendees had the unique opportunity to enhance their expertise through hands-on training and learn from leading experts in the field.

Engaging sessions covered a wide range of topics, including:

- ◆ Keynote Address and Workshop Inauguration by Dr. Kaushik Banerjee
- ◆ Session on polar pesticides by ICAR-NRCG Expert Dr. Sandip Hingmire
- ◆ Insight into Phenomenex solutions for food sample analysis by Dr. Vinay Bathineni
- ◆ Food contaminant analysis - regulations and challenges by Dr. Daniel McMillan
- ◆ Workflow demonstration on LC-MS/MS by Dr. Chandrasekar M

The workshop fostered an environment conducive to networking and collaboration for participants working on food testing in the Pune region.
