

Program on Feedback cum Distribution of Fertilizers to SCSP Beneficiaries was organized on 15.03.2024 at Nandapur Village, Taluka and District: Jalna

ICAR–NRCG, Pune had organized the agricultural input distribution cum feedback-interaction meeting at Nandapur village, Taluka and District Jalna under Scheduled Castes Sub Plan (SCSP) Scheme Govt. of India on 15.03.2024. In this distribution program, various essential fertilizers required for cultivation of agricultural crops including grapes were supplied to 124 SC farmers of Nandapur and Kadwanchi villages. Dr. Somnath Holkar, (Senior Scientist), ICAR-NRCG, Pune and Nodal officer of the SCSP program, interacted with the farmers of two villages and provided the information about the SCSP program activities, disease management approaches and discussed about the various programs implemented in the last three years. Similarly, feedback from the recipients of this scheme were also obtained and noted for further improvement of the program in near future. Mr. Kharat, a village representative, expressed his views on the various benefits of this schemes to the SC farmers for enhancing their production and livelihood. He had also focussed the positive impact of previous activities which were carried out during the last three years (2021-22 to 2023-24). He had expressed that implementation of this schemes in both the villages have helped the farmers to increase their production and productivity of various crops cultivated. This program was attended by the 124 SCSP beneficiaries along with other villagers. This program was assisted by Mr. Eknath Kable, (Technical officer), ICAR-NRCG Pune. Dr. Kaushik Banerjee, Director, ICAR-Grape Research Centre, Pune provided invaluable support in organizing the feedback cum distribution programme in the two villages.
